

COMPETITIVE REVIEW · JUNE 2026

PRI Global — Competitor Website Review

Analysis of TEKsystems, Insight Global, Apex Systems, Kforce, and Experis — homepage messaging, services, talent workflows, CTAs, UX, portals, and trust indicators.

Objective: a cleaner, more modern, conversion-focused website — leading with **28+ years of staffing, consulting, and managed services expertise**, plus PRISM.AI and PRI AI Pods™.

Prepared by: Corneliu Secieri

For: Cornell, Elther, Robbie & Keenan

Competitors: TEKsystems · Insight Global · Apex Systems · Kforce · Experis

1. What They Do Exceptionally Well

TEKsystems

- Outcome-led homepage (growth, transformation, AI — not just staffing)
- Hard trust metrics: 98% retention, 93% NPS, \$7B+ revenue
- Services grouped by business outcomes (ROI, growth, customer experience)
- Partner ecosystem and annual State of Digital Transformation report

Insight Global

- Strong emotional messaging: “The right talent changes everything”
- Quantified credibility: 2,000+ AI-enabled recruiters, 71 NPS, 51K+ placements
- Clear split: Staffing vs Professional Services (Evergreen)
- Client quotes with specific outcomes (roles filled in under a week)

Apex Systems (Everforth)

- AI-enabled positioning: “Built to Adapt”
- Partner badges (Databricks, Microsoft)
- Simple expert-connect CTA + jobs path for candidates

Kforce

- Clear mental model: Talent → Team → Project → International
- Deep industry vertical pages
- Third-party validation (Forbes, SIA, NPS stats)
- White paper library for SEO and lead gen

Experis

- Fortune 500 trust + 75-country scale
- Case studies with hard metrics (e.g. 60% approval time reduction)
- Recognition wall (HRC, Everest, Ethisphere)

2. What Appears Outdated or Overly Complex

Competitor	Issues
TEKsystems	Security banners above fold; deep mega-menus; heavy enterprise tone
Insight Global	Long homepage; aggressive modals; news dilutes service discovery
Apex	Rebrand confusion; thin service taxonomy
Kforce	Duplicate homepage blocks; dated design; long accordion pages
Experis	Carousel-heavy UI; weak owned AI product story; buried portals

3. Ideas Incorporated in PRI Global (June 2026)

Idea	Status
Trust metrics on key pages	TrustBar on Home, Services, Talent, AI Services
Outcome-based service paths	ServiceOutcomes on /services (Hire / Run / Transform)
Talk to an Expert CTA	Hero, Get Pricing, Talent Solutions
Metric-led testimonials	Outcome labels on select testimonials
Technology partner section	TechnologyPartners on Services
AI Pods dedicated page	/ai-services
Solution Quiz, ROI Calculator, PriVa	Already live
Candidate + Client + Employee portals	Portal menu

Still recommended: flagship annual report, deeper industry landing pages, more case study metrics on homepage.

4. Where PRI Global Can Differentiate

- 1. Integrated AI story** — PR1SM.AI + PRI AI Pods + 28 years delivery (competitors lack a product layer)
- 2. Conversion tooling** — Quiz, ROI calc, PriVa, Get Pricing vs generic contact forms
- 3. Portal experience** — Three portals in one nav (rare in staffing)
- 4. Site clarity** — Less banner noise and mega-menu overload than enterprise competitors
- 5. Mid-market accessibility** — Free consultation, 30-min strategy calls, pods in weeks
- 6. Talent + Technology + AI** — End-to-end story few competitors can match
